

PROJECT INFORMATION SHEET

PIP No :

148

(To be allocated by MOP)

PART A : BASIC PROJECT INFORMATION

(Must be completed in all cases)

1. PROJECT NAME: **Community Fisheries Management and Strengthenh**
2. PROJECT DATES:
- PROJECT START: **1/1/2024**
- ESTIMATED COMPLETION: **12/31/2026**
3. TOTAL PROJECT COST: **\$3,000,000**
4. RESPONSIBLE MINISTRY: **Ministry of Agriculture, Forestry and Fisheries**
- RESPONSIBLE UNIT: **Fisheries Administration**
- អង្គភាពទទួលខុសត្រូវ: **រដ្ឋបាលជលផល**
5. PROJECT STATUS: **Planned**

DETAILED PROJECT INFORMATION

6. TYPE OF PROJECT: **Investment project**
7. SOURCE OF PROJECT FUNDING: **Mix of RGC, Grant and Loan**
8. THE POLICY AREA OF THE PENTAGON STRATEGY PHASE I THAT THIS PROJECT FALLS UNDER:V
Side 1. Development of Labor Market
9. THE CONTRIBUTION OF THE PROJECT TO ACHIEVE THE ABOVE POLICY:
The project would impact on the management, development and conservation of fisheries resources to contribute to achieve the vision, goal and objectives of fisheries management, in particular
10. SUPPORT TO CAMBODIA INDUSTRIAL DEVELOPEMENT POLICY:
Does this Project support to the implementation of the Cambodia Industrial Development Policy? **No**
11. SECTOR:
Agriculture, Fisheries & Land Management: Fisheries
excluding seasonal Crop production
12. PROJECT LOCATION: (Describe the location of the project and its components.)
All Provinces,
13. PROJECT OBJECTIVE: (Describe the major purpose of the project.)

- a. To Build the capacity of human (fisheries officials, local authorities, and community fisheries organizations through training, workshops, and study tours) on fisheries management
- b. To strengthen community fisheries (CF) in protecting and managing fisheries resources in CF areas, reservoirs, and flooded forest. To provide legality to established CFs through registration; re-election; revision/formulation of CF plan; mapping; and boundary demarcation.
- c. To provide the understanding on the importance of participating in the protection of fisheries resources and other natural resources through community fisheries and how this affects their ability to diversify their livelihood options to publicity, partners and line agencies.
- d. To develop and effectively inspire communicating and information system to a wider group of local communities in order to improve their understanding of the fisheries law, and other relevant norms which are involved in community fisheries roles and rights.
- e. To diversify livelihood options to support to the CFi members' income and well-being, and then particularly to motivate their active participation in effective protection and management fisheries resources within their CFi fisheries domain.
- f. To motivate community fisheries organizations, their members and the local authority work hand in hand as a network which gradually ensure volunterry participation in management and conservation, and sustainable use of natural resources at the ground level.
- g. To Provide equipment and facilities for their effective function

14. PROJECT DESCRIPTION: (Provide a description of the project and all its components.)

To manage and conserve fisheries resources for the sustainable use and management through local participation based on community fisheries management and development in order to achieve the improvement of local people livelihoods by increasing fish stock and catch for family food security and income generation.

15. PROJECT JUSTIFICATION: (Give reasons why this particular project is considered worthwhile.)

Since fisheries reform in 2000, 516 community fisheries (CFi) have been established in the community fisheries area of inland and coastal of Cambodian waters, aimed at empowering CFis' rights to accessing, protecting, managing and conserving of fisheries resources. In supporting to this reform, collectively participate from the CFis are encouraged and seen as the indicators to reflect the adaptive co-management practice in fisheries resources. It was due to the aware of this, fisheries administration together with its development partners and line agencies have actively been assisting community fisheries located in several important part of fisheries domains, such as the Tonle Sap Great Lake, Coral/Seagrass/mangrove areas, and Upper Mekong River, through improving their legality, knowledge, livelihoods, and especially to build their capacity in protection and management of CFi' fisheries resources. Likewise, other established CFi in the Lower part of the Mekong River and other fisheries domains also need the support. However, it was due to the limitation of fund source, some of communities located around the Lower Mekong River and other floodplains are getting less support from either government program or NGOs, leading to imbalance in co-managing and conserving of fisheries resources, and unable to get healthy environment for the whole fisheries ecosystem. In order to escape from such gap, therefore, FiA put a lot of efforts to find the opportunity to support communities and try to collaborate with development partners for the sake of strengthening of existing CFi and harmonizing fisheries resources in Cambodia' water bodies.

16. BENIFITS: (Who will benefit, directly and indirectly, from the project?)

Community Fisheries Members, Fisher and Stakeholders

17. FEASIBILITY STUDY

Is a Feasibility Study for the project required? **No**

If YES, has it been carried out? **Not yet**

18. SOCIAL & ENVIRONMENT IMPACT: (Briefly describe the effects of the project, if any, on the people and the surrounding enviroment. Will the project assist in alleviating poverty?)

No, It does not require the study.

19. CLIMATE CHANGE

a. Is any activity or output of the project related to Climate Change? **No**

b. How is the project relevant to Climate Change?

Please select a Climate Change related sector of the project and fill up the contribution of the climate change related expenditure compared to the total project cost.

Climate Change-Related Sector	Percentage	Climate Change Relevance
-------------------------------	------------	--------------------------

20. DISASTER RISK REDUCTION

Is any activity or output of the project related to Disaster Risk Reduction? **No**

21. GENDER ANALYSIS: (How does the project affect the roles of the men and women in the project area? Will women be actively involved in the implementation of the project?)

Gender play important role in the project. Women are encourage to participate in the project activities. The target is 40% women involvement.

22. CAPACITY TO IMPLEMENT: (Does the Ministry have the skills and experience required to implement the project?)

The MAFF has sufficient capacity to implement the project activities. The staff has long term experiences in implementing community fisheries management since 2000. MAFF has lead consultation and formulate the policy for the community management, and provide capacity building to the community.

23. STATUS OF PROJECT IMPLEMENTATION: (Provide a brief update on the progress of the project to date. Discuss any major problems causing delays in project implementation.)

MAFF has facilitated the consultation with local communities and other stakeholders to formulate legal documents of the community and provide the official registration of up to 394 communities. All most all the communities got CFi agreement, area management plan, internal rules and regulation. The communities got capacity building through training, workshop, and study tour related to sharing experiences and learning from each other about fisheries management, legal understanding and livelihood activities. The communities got support from the government and NGO, IOs and regional fisheries organizations.

24. PROJECT PRIORITY: (Please indicates the priority ranking of the project decided by the ministry/agency.)

1

25. DONOR INVOLVEMENT: (Provide any information on current or potential donor involvement in the project.)

So far the activities were implemented by the national budget of the Royal Government of Cambodia and participated in the implementation by ADB, DFID/DANIDA and currently by EU. The EU pledge the support from 2015 to 2018.
