13. PROJECT OBJECTIVE: (Describe the major purpose of the project.)

**The Project aims to develop the regulatory environment which enables diversified modern logistics service and expands business opportunities for logistics service providers and investors, especially manufacturing companies in Cambodia. The international vender-managed inventory service provides the option for private business operators to strategically choose the location of production.**

14. PROJECT DESCRIPTION: (Provide a description of the project and all its components.)

**In Cambodia, the logistics volumes have increased; however, the variety of logistics services provided by logistics service providers is still limited. It is necessary to diversify available logistics services and integrate the supply chain such as production, logistics and sales to improve efficiency. This project aims to promote international vender managed inventory service to meet the demand of new business models and attract more investment especially higher valued-added manufacturing investment as well as to make Cambodia the regional logistics hub.**

15. PROJECT JUSTIFICATION: (Give reasons why this particular project is considered worthwhile.)

**Under the current regulations such as Custom Law, regulations on the Custom Warehouse and tax treaties, it is not clear if logistics companies can operate international vender managed inventory services without any unexpected violations or surcharges. However, international vender managed inventory services is operated in many other countries. The introduction of international vender managed inventory services and regulatory reform/development help to improve the competitiveness of Cambodia in this regard.**
